Summary

I am a fresher who has recently completed a DevOps Engineering course. I am also a front-end web developer skilled in HTML, CSS and Python. I am quick to adapt and constantly work to improve my knowledge with emerging technologies. I am a detail-oriented and reliable individual with strong communication skills. I am eager to contribute to a team environment and continue developing new skills.

Internship

Linear Edge Tech., Mysore, Front-end Web Development

2023

- Linear Edge Technologies Private Limited is a private company incorporated on 06 June 2020. It is classified as 'non-government company' and is registered at Registrar of Companies, Bangalore.
- Its authorized share capital is Rs. 1,000,000 and its paid-up capital is Rs. 200,000. Its NIC code is 729 (which is part of its CIN). As per the NIC code, it is involved in other computer related activities [for example maintenance of websites of other firms/ creation of multimedia presentations for other firms etc.]

Projects

Intelligent Voting System with Biometric Face Recognition

May 2025

- Developed a secure and user-friendly voting system using facial recognition technology to verify voter identity and eliminate duplicate or fraudulent votes. Integrated Express backend and OpenCV for real-time face detection and recognition, and used a PostgreSQL database for secure storage of voter information. The system ensures accurate authentication and enhances the transparency and efficiency of the election process.

Appointment Booking Application

Sep 2024

- An Appointment Booking Application is a platform that helps users schedule, manage, and track appointments easily. It includes features for both customers and service providers. Customers can check available time slots, book appointments, and receive reminders, while service providers can organize their schedules, confirm bookings, and maintain customer information.
- This system streamlines the process by reducing manual effort and improving communication between users and providers. It is commonly used in industries such as healthcare, salons, and consulting services.

Technical Skills

Languages: Python, SQL, HTML, CSS

Technologies: Django(intermediate)

Education

Vidya Vikas Institute of Engineering and Technology (Visvesvaraya Technology University), Mysore, Karnataka , BE-Information Science and Engineering	2025
• CGPA: 7.3
